HEADTEACHER: MRS. S.E. LAWRENCE, B.A.

5th November 2009

As you will probably be aware the school has recently had an HMI/Ofsted Subject Inspection for Business.

As Business and Enterprise is a specialist area at Kings', we are absolutely delighted that the school has received an "Outstanding in all Categories" judgement by the inspectors.

Over the last six years, our staff and pupils have worked extremely hard to achieve some truly outstanding achievements and this judgement is a fitting reward for their endeavours.

The full text of the inspection report will be made available to us within the next ten days and then communicated to all stakeholders via the school's website.

Here are some of the comments made by the Inspector:

The delivery of Business and Enterprise is inspirational and judged to be exceptional in all respects.

Teaching observed was deemed to be outstanding. Business teachers had good subject knowledge and prepared for lessons thoroughly and format encourages the delivery of learning outcomes rather than content.

Teachers constantly check on pupils progress and pupils recognise the level of support and encouragement they receive from staff.

The provision for the delivery of "Economic understanding" through Enterprise and PSHEE is outstanding.

Pupils value their BCS lessons highly and recognise their relevance to the modern world. The quality of the "Business Curriculum" is outstanding.

The opportunities created through "Enterprise Activities" is regarded highly by pupils. The integration of the Business and Enterprise curriculum with PSHEE, mathematics and other subject areas shows high levels of integration and collaboration between staff.
